

SULTRASOFT HC

Cleaning enhancer for use in hydrocarbon.

Application

SULTRASOFT HC is specially developed for cleaning textiles in hydrocarbon solvents

Properties

- SULTRASOFT HC does not contain any boiling-point reducing components
- This cleaning enhancer has an excellent detergency and bulking effect.
- Static charging and pill-forming are avoided.
- SULTRASOFT HC ensures a good filter flow for the cleaning bath.
- Thanks to the specially-added surfactants, the cleaned goods have an agreeably "full" texture.
- A neutral perfume gives a pleasant scent to the cleaned goods.

Sultrasoft HC gives a Hygienic finish.

Use instructions

- Optimal action of SULTRASOFT HC is obtained with a 2-bath method, in which the first wash bath is continuously distilled.
- Basic concentration of the wash bath:
200 g SULTRASOFT HC / 100 L solvent (cleaning bath + filter content).
- Re-dosing for each cleaning cycle: (At 1/3 bath replacement)
100 g SULTRASOFT HC / 10 kg clothes.

SULTRASOFT HC is NOT suitable for use for prespotting . Pre-scrubbing can also be done with SULTREX HC. Immediately after treating the soiled area, clean using the Sultrasoft HC.

Physico-chemical properties

- Clear amber liquid
- Flashpoint > 60°C
- Density 1.02 kg/L
- pH 6 – 8
- 30 % non-ionic surfactants
- 15 - 20 % cationic surfactants
- PerfumeSoluble in Perchlorethylene and Hydrocarbon solvents.

Safety & transport

Meets European directives on the classification, packaging and labelling of dangerous chemical substances and preparations

Storage

Use above 5°C. Store above 0°C

Packaging

Canister 10 kg
