

SULTREX HC

UNIVERSAL PRESPOTTING AGENT FOR USE IN HYDROCARBON

Application

SULTREX HC is used undiluted for pretreating heavily soiled garments before they are cleaned in Hydrocarbon solvent

Properties

SULTREX HC rinses out easily during the cleaning process.
It increases the cleaning effect on both water based and oil based soiling.
It can be applied with a spotting brush or spray
Sultrex HC does not contain any boiling point reducing components

Instructions for use

Apply SULTREX HC to the heavily soiled areas by brushing-in or spraying.

The treated garments should be then be cleaned immediately in a wash bath with the addition of SULTRASOFT HC.

Because SULTREX HC is a concentrated product, be cautious with sensitive colours. For delicate items we advise the use of SULTRASPOT SOFT

Rinsing out can be improved by diluting with one half hydrocarbon solvent, this also reduces the risk of discolouration

Physico-chemical properties

Appearance: Clear amber liquid.
pH-value (1%): 6/8
Density 1.01 kg/l @20°C
Solubility: Soluble in Hydrocarbon and water

Composition & Safety

Anionic surfactants	20%
Non-Ionic surfactants	25%

Meets European directives on the classification, packaging and labelling of dangerous chemical substances and preparations.

Storage

Use above 5°C. Store above 0°C

Packaging

Canister 10KGS
