

Sultrex P

Professional prespotter for Perchloroethylene

Application

SULTREX P is used undiluted or diluted 1:1 with water before cleaning in Perchloroethylene.

It can be applied with a spotting brush or sprayed.

Properties

SULTREX P rinses out easily during the cleaning process. It increases the cleaning effect on both water based and oil based soiling.

Excellent water carrier

Use instructions

Apply SULTREX P to the soiled areas by gently brushing in or spraying. Use neat or mixed 1:1 with water for more robust garments.

The treated garments should then be cleaned as soon as possible in a cleaning bath using SULTRASOFT P.

For delicate items or sensitive dyes, test on a seam before proceeding. For very delicate items use [SULTRASPOT SOFT](#).

Physico-chemical properties

Appearance: Clear amber liquid.

Density (20 °C): 0.98 g/ml

pH-value (1%): 7/8

Solubility: Soluble in Perchloroethylene and water

Safety & transport

Anionic surfactants 20%

Non-ionic surfactants 25%

Meets European directives on the classification, packaging and labelling of dangerous chemical substances and preparations.

Storage

Use above 5°C. Store above 0°C

Packaging

Canister 10 kg
