

# SULTRASOFT HI

Cleaning enhancer for use in HiGLO Solvent

## Application

SULTRASOFT HI has been specially developed for cleaning textiles in HiGlo solvent.

## Properties

SULTRASOFT HI does not contain any boiling-point reducing components.

It has excellent detergency and bulking effect.

Static is reduced and the cleaned goods are given a soft texture.

Sultrasoft HI also gives a Hygienic finish

## Use instructions

Optimal action of Sultrasoft HI is obtained with a 2-bath method, in which the first wash bath is continuously distilled.

The addition of Sultrasoft HI is 2 ml per litre of solvent (bath and filter content)

SULTRASOFT HI is not suitable for prespotting. For Prespotting use SULTREX HI.

## Physico-chemical properties

Appearance: Clear amber liquid.

Flash point > 60 °C

pH-value (1%): 6/8

Solubility: Soluble in Hydrocarbon and HiGlo Solvent.

## Composition & Safety

Cationic surfactants 15%

Non-Ionic surfactants 30%

Meets European directives on the classification, packaging and labelling of dangerous chemical substances and preparations.

## Storage

Use above 5°C. Store above 0°C

## Packaging

Canister 19kg
